

Grab Hand Safety Tool for Pipes and Tubulars

Helps avoid hand related safety issues while working with suspended tubulars.

Is cleverly designed to help :

- Provide full control of suspended tubulars 3" - 10" in diameter
- Promote hands-free operations

Features :

- Ratcheting action enables the Grabit to lock as it closes around the tubular to ensure a firm grasp
- Trigger allows for easy release
- Compact and lightweight design makes it ergonomically friendly
- Side handle for better ergonomical friendly
- Tethering point to prevent a dropped object
- Safety orange color for better visibility
- Wide curved area at top of tool for added stability when pushing.
