

ROD LIFTER

RAAH Safety Rod Lifter

In an attempt to keep workers safe, we make significant efforts to eliminate work-related risks through product engineering. We also provide a number of hand-tool solutions to eliminate hand injuries.

- Ergonomically keeps the wrist and hand in a neutral position and eliminates strain
- Removes fingers from pinch points and sharp surfaces
- Allows for proper lifting techniques and body positioning
- Prevents thread damage
- Prevents pipe slippage through the use of a specially designed car - bide grip.
